Professional Summary

Data Analyst with hands-on experience in Business Intelligence and a strong foundation in Data Science. Skilled in transforming complex datasets into actionable insights to support strategic decision-making and cross-functional collaboration. Proficient in Python, SQL, and BI tools such as Tableau and Looker Studio, with strengths in data visualization, storytelling, and machine learning.

Education

Telkom University

2021 – 2025

Bachelor of Data Science (GPA: 3.96/4.00 - Summa Cum Laude)

Surabaya, Indonesia

Specialized in data visualization and graph theory, integrating sentiment and social network analysis in the final thesis. Actively contributed to multiple research projects, with one of the papers published and presented as the first author at the International Conference on Data Science and Analytics (ICoDSA).

SMA Negeri 6 Surabaya

2018 – 2021

Natural Science

Surabaya, Indonesia

Work Experience

Tangga Agency

Nov 2025 – Mar 2026

Junior Business Intelligence

South Jakarta, Indonesia

- Developed 4 interactive Looker Studio dashboards to monitor survey performance across 4,300+ retail stores and 4,000+ respondents, reducing manual reporting time by 40–60% through automated data processing (Power Query, daily multi-source updates).
- Designed sampling strategy and ML-assisted routing approach (90%+ confidence level) while collaborating with a 10-member cross-functional team, enhancing survey targeting accuracy and planning effectiveness.

Telkom University

Jul 2023 – Oct 2025

Student Staff of Logistic Asset Management Unit

Surabaya, Indonesia

- Managed asset lending operations for 20+ organizations and campus units, coordinating high-frequency requests and improving resource allocation efficiency.
- Built Excel-based monitoring systems for 30+ classrooms and 15+ student staff attendance, reducing manual tracking time and creating reusable tools adopted across units.

Self Employed

Jun 2023 – Feb 2025

Freelance Data Analyst (Part-Time)

Remote, Indonesia

- Delivered end-to-end data analysis (EDA, visualization, basic ML) for 5+ clients, translating raw data into actionable insights for business decision-making.
- Developed Tableau-based plantation monitoring dashboards with iterative improvements and enabling faster issue detection.

Kuanta Indonesia

Feb 2024 – Jun 2024

Data Analyst (Internship)

Surabaya, Indonesia

- Built 2 reusable Looker Studio dashboards for training evaluation (10–15 participants per cohort), standardizing reporting and improving program visibility.
- Reduced reporting preparation time by 30–40% through scalable dashboard design, enabling consistent evaluation across multiple programs.

Telkom University

Mar 2023 – Jan 2024

Assistant Lecturer (Teaching Assistant – Part-Time)

Surabaya, Indonesia

- Facilitated data wrangling and EDA sessions for 30–40 students per class, strengthening analytical and problem-solving skills through hands-on guidance.
- Contributed to module development and full-cycle assessment (assignments, midterms, finals), ensuring consistent evaluation and student performance tracking.

Skills

- [Hard Skills] Data Analysis, Exploratory Data Analysis (EDA), Machine Learning, Data Warehouse Design, Python, SQL, Statistics
- [Soft Skills] Data Storytelling, Problem Solving, Critical Thinking, Communication, Leadership, Project Management
- [Tools & Software] Tableau, Looker Studio, Microsoft Excel, Power BI, Power Query, Google Colab, Gephi, Pandas, NumPy
- [Languages] Indonesian (Native), English (Intermediate proficiency)

Projects

- **Sentiment and Social Network Analysis of Popular Tourist Destinations in Malang City**
Jul 2025 – Developed an SVM-based sentiment analysis model processing 1,400+ TripAdvisor reviews (achieved 80% accuracy) and mapped social network data using NetworkX and Gephi. Extracted actionable insights on public perception for Malang tourism stakeholders.
- **Citation Network Analysis in Scientific Research at Private University**
Jul 2025 – Led a large-scale graph analysis project mapping collaboration patterns of 4,800+ researchers. Published as first author at the International Conference on Data Science and Analytics (ICoDSA) 2025.
- **Dashboard for Location Segmentation in New Student Admission Promotion**
Nov 2024 – Built an interactive Tableau dashboard to segment 7,300 applicants and 13,900 prospective students from 4,100 schools across Indonesia by geographic location and interest, directly supporting targeted admission campaigns. Secured two Intellectual Property (HKI) registrations.
- **Asset Monitoring Dashboard for Logistic Asset Management Unit of Telkom University**
May 2024 – Developed an automated dashboard using Looker Studio to monitor asset lending operations for 20+ organizations and campus units across various item packages, reducing manual reporting and improving logistics visibility.
- **Strategies Analysis for (UMKM) Enterprises in Improving the Economy in East Java**
Sep 2022 – Analyzed government datasets at JCI East Java Data Hackathon 2022 to uncover economic trends and deliver policy recommendations. Secured 5th place overall in the competition.

Organizational Experience

Data Science Student Union Of Telkom University Surabaya
Chairman

Dec 2022 – Dec 2024
Surabaya, Indonesia

- Led 4 divisions with 50+ members across 10+ organizational programs over two terms, driving cross-functional collaboration and ensuring successful execution of academic and non-academic initiatives.
- Managed stakeholder relationships across campus units and external partners, contributing to organizational growth and earning a partial scholarship for leadership performance.

Marketing and Digital Team (MDT)
Digital Team and Division of Study Program Branding

Jan 2022 – Apr 2023
Surabaya, Indonesia

- Contributed to branding campaigns for 11 study programs by developing content strategies (scripts, visuals, copywriting) to strengthen digital presence and audience engagement.
- Recognized as a top-performing member for delivering high-quality visual communication and consistent campaign output.

PKKMB Dewangkara Maetala 2022
Publicity, Documentation, and Design Division

May 2022 – Oct 2022
Surabaya, Indonesia

- Produced and managed visual and video content for large-scale student orientation programs, supporting communication delivery and participant engagement.
- Collaborated with cross-functional teams to ensure timely publication of event materials across digital platforms.
